MOU with

Fall Internship

GREAT LAKES Institute of Management hardly needs any formal introduction. Founded in April 2004 by Padmashri Prof. (Dr.) Bala V. Balachandran of the world reputed KELLOGG School of Business - Northwestern University, it has in just three years firmly established itself as one of the top B-Schools in the country. The high quality of its students is universally recognised, with most of the top organizations coming to its campus to pick up its students for key managerial positions.

While most B-Schools have summer projects at the end of the first year, the Fall Internship undertaken at GREAT LAKES is at the end of 4 terms of the core courses. Starting in October 2007, the Fall Internship has a duration of 8 weeks, including 4 weeks of on-site internship, 2 weeks of on-campus preparatory research before the internship and 2 weeks of on-campus analysis and documentation, at the end of the on-site internship. The schedule is designed in a way that the students' learning experience is not diluted by time constraints, which are experienced in a one year course. This concept has resulted in a strong partnership between GREAT LAKES and the corporate community. Great Lakers have earned several accolades from the best companies in the country for the quality of their work.

Internship Objectives

- The main objective of the Fall Internship is to contribute to the solution of a business problem or undertake the study of a relevant issue for a company, applying the knowledge, concepts and capabilities acquired during the first four terms of the program.
- The Fall Internship offers a student the possibility of assessing his/her area of interest and capabilities for a full-time position, upon completion of the study.
- An additional benefit to the companies is the unique opportunity to evaluate the student from a long-term perspective. This is reflected in the increasing number of Pre-Placement Offers made to candidates in the past academic year.
